

Permanent Packaged Plant Solutions

Siltbuster Ltd is the UK's leading provider of responsive treatment solutions and operates the UK's largest fleet of package plant systems.

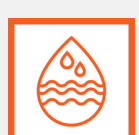

The leading solutions company for treating contaminated water across a wide range of sectors and applications for over twenty years.

Our permanent proven packaged plant of solids and liquid separation and biological plant supports UK industry with:

- **Modular Build** - Building packaged plant at Siltbuster, all equipment undergoes Factory Acceptance Test before dispatch, reducing costly time on site
- **Pilot to Permanent** – Siltbuster package plant can be used to trial technology enabling information to be generated to optimise full-scale plant design
- **Flexible Factory Upgrades** - Siltbuster packaged plant is designed to be easily transportable and can be integrated with existing assets. Being modular, it can also easily be moved across site or even from site to site!
