

# Responsive Rental Solutions for Wastewater Treatment

**Siltbuster Ltd** is the UK's leading provider of responsive treatment solutions and operates the UK's largest fleet of package plant systems.

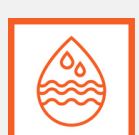

The leading hire company for treating contaminated water across a wide range of sectors and applications for over twenty years.

Our fleet of packaged solids liquid separation and biological plant supports UK industry with:

- **Seasonal Load Variations** - Siltbuster can provide wastewater treatment only when you need it - why have assets on site if not used for months on end?
- **Consent Savings** - Siltbuster package plant can bring you in consent and provide savings from your wastewater bill, operational within days of delivery and often same day
- **Water Reuse** - Siltbuster solutions can allow water to be recycled and re-used - reduce costs, great for sustainability and minimising Carbon Footprint
- **Minimal installation time on site** - All Siltbuster equipment undergoes Factory Acceptance Tests prior to dispatch to ensure the correct and safe operation of the system
